

Hi there. I'm add a nice feature in jBgallery 2.0 beta by [Massimiliano Balestrieri](#) .

## The mod for RANDOMIZE

In row number 42 i've add a config parameter:

```
randomize : true, //RANDOMIZE - blackout: http://www.grayhats.org
```

and after Interface approx in row 293

```
{codecitation class="brush: js;"} jBGallery.Interface = function(el, data, options){
```

```
//RANDOM LOAD - blackout: http://www.grayhats.org  
if( options.randomize==true )  
{  
options.current = Math.ceil(data.length*Math.random());  
if( options.current > data.length || options.current==0 )  
options.current = 1;  
}  
// -- RANDOM LOAD - blackout: http://www.grayhats.org
```

```
{/codecitation}
```

;-) enjoy open source
